

At Gilbertstone, we use a whole school tracking system. This helps us to know what all children have learnt and what their next steps are.

All children with SEND are also tracked on a separate system called the Toolkit Progress Tracker, which breaks down the progression steps into smaller chunks.

This system is good at showing us small steps of progress for children with additional needs, so we know exactly how best to help them.

We use Phonics Tracker to track early phonics and reading skills.
